# Intensive Advertising Brings Home the Bacon

The vast majority of recognized Authorities admit that intensive advertising brings the results.

Intensive advertising in Medicine Hat and surrounding district can only be done thoroughly through the medium of the **NEWS**.

The Readers of the **NEWS** will ask for your goods if they see them advertised. Create the demand, and the buyers will do the rest.

**We are Members of the  
AUDIT BUREAU OF CIRCULATION**

## Job Printing

### **Ruling, Book Binding and all kinds of Printing**

The **NEWS** has a complete and up-to-date plant, and can do any printing you may require. There is no need for any firm, corporation or individual to send out of town for any printing. Compare the quality of our work and promptness of service with others, and we will get your order.

# The Medicine Hat News

Delivered to your door each evening for 25 cents per week.  
By mail \$6.00. Weekly by mail \$1.50.

# Introductory

---

**T**HIS Fourth issue of Henderson's Medicine Hat and Redcliff Directory, comprising the City proper and suburbs, is presented to the public with the belief that it will meet the demands of the most exacting and will fulfill the requirements of all its users.

The information in this book is gathered as far as possible by actual canvass, and is compiled in a way to ensure maximum accuracy. While the publishers will in no way be held responsible for any errors that may occur, they will be glad to have any inaccuracies brought to their attention, so that they may be corrected in succeeding editions.

The canvass for the present book was made under favorable conditions, with a crew of efficient canvassers, under the immediate supervision of carefully trained examiners.

The results of the canvass were most satisfactory and the manner in which the information checked in, proved the thoroughness of the work.

Upon examination and use as a work of reference, the directory will be found to contain a thorough and complete store of information regarding all the interests of the city. It is devoted to the advancement of all the city's vital interests and has in each issue kept pace with its progress.

The library of city directories which is maintained by the publishers at The Chamber of Commerce offices, for the use of its patrons, has proven a most valuable asset to the City of Medicine Hat.

Through the exchange of directories with the various directory libraries throughout the United States and Canada and the sale of the Medicine Hat Directory to many institutions, hotels and stores in large cities, the directory is circulated throughout the country and serves as a lasting advertisement for our city.

The canvass for the Medicine Hat Directory includes the entire city, so that the name of each person employed should be taken twice; once at the dwelling and again at the place of business. After the canvass has been completed, this information is compiled and it is necessary that there be two slips for each person employed. The information taken at the residence and place of business is compared before the duplicate is laid aside. When a discrepancy is found, a special messenger is dispatched to correct the conflicting information, or if the name has not been taken at both places, to retake it at the home or business place.

The new information is checked with the previous directory and each name in the old directory is accounted for.

It is this careful superintendence and revision which makes the directory estimate of population higher than the census figures.

The directory estimate of population is based on the actual number of names contained in the book, which is multiplied by a common multiple to allow for the married women and small children whose names do not appear.

Based upon the names contained in the pages of this book, it is estimated that the population of Medicine Hat is 10,505. This includes considerable territory beyond the city limits, which is canvassed in order that the names of all people doing business in Medicine Hat may be obtained for the directory.

The publishers desire to thank their patrons and the general public for the courtesy extended at all times to their representatives, and to express their appreciation for the confidence which the business and professional men of Medicine Hat have always shown in their publications.

Respectfully, The Publishers,

HENDERSON DIRECTORIES, ALBERTA, LIMITED

November, 1923.

# Medicine Hat, Alberta

## LOCATION

Medicine Hat is beautifully situated on the banks of the Saskatchewan River, and in the heart of the rich prairie country known as "Sunny Alberta."

The city possesses several special features which tend to make it a thriving and prosperous centre. On account of the cheap fuel obtained from its natural gas field, Medicine Hat has become the chief manufacturing centre of the Western Provinces. It is located about midway between Calgary and Moose Jaw, and hence is the distributing centre for a large and rich area of country. The school system of the city is one of the very best. The health of the city is good, much credit for which is due to the excellent water system and to the fine climate of this part of Western Canada.

## NATURAL GAS

The city's greatest asset, its natural gas, immediately attracts the attention of the visitor, and the following questions come to his mind in regard to it: What is the composition of this gas? What is its origin, and of what use is it?

Medicine Hat natural gas is noted for its purity. It is composed principally of methane, otherwise known as marsh gas, fire damp, or light carburetted hydrogen. In most localities of its occurrence, natural gas has 80 to 90 per cent. methane, the remainder of the gas being made up of heavier hydrocarbons and air constituents. In many cases the heavier hydrocarbons are capable of condensation as "natural gas gasoline." Medicine Hat natural gas, however, contains 92 to 95 per cent. methane, and is known as a "dry gas" having insufficient moisture or heavier hydrocarbons to cause any trouble in pipes from condensation and freezing.

Methane is composed of the chemical elements, carbon and hydrogen, in proportions by weight of three of carbon to one of hydrogen. Hydrogen is our lightest known gas, and is noted for the heat of its flame. Next to pure hydrogen, methane has the highest power of all common gases. Householders find that at 25 cents per thousand cubic feet (the price charged in Medicine Hat) a house can be heated for less than half what it would cost to heat with anthracite coal at \$7.00 per ton. Since manufacturers secure a rate of 6½ cents to 3 cents per thousand cubic feet, it is little to be wondered that Medicine Hat has become the manufacturing centre of the West.

## **HEAT, POWER AND ELECTRICITY**

The following rates for heat, light and power obtaining in Medicine Hat will enable one to judge of the practical value of the natural gas.

It is municipally owned, and is the only fuel used in the city for domestic use. The citizen is charged 25 cents per thousand cubic feet, while the rates for manufacturers are 3 to 6½ cents per thousand cubic feet, according to the amount used.

The manufacturing possibilities of Medicine Hat natural gas are exceptional, not only from a fuel standpoint, but also when we consider what can be made from the gas itself. Owing to its purity, the gas can be used in manufacturing processes not possible in the majority of natural gas localities.

The gas, again, is used for the production of electric current in the cities up-to-date power plant. This electric current for lighting and power is supplied at rates varying from 1 cent to 10 cents per kw. hr., according to the consumption.

## **COAL DEPOSITS**

Within a few miles of the city limits are vast quantities of high grade lignite coal, which is being mined and distributed to the surrounding country at an exceptionally low cost to the consumer.

## **RAILWAYS**

Medicine Hat is a divisional point of the Canadian Pacific Railway is at the junction of this company's main line with the Crow's Nest Line, and has connection also with the Soo Line of the same system. There are eight hundred C. P. R. employees resident of Medicine Hat, inclusive of those working out of this city. The monthly payroll for the Division, with headquarters here, is \$200,000.

The CANADIAN NATIONAL RAILWAY has purchased right of way into the city, also property for its terminals, yards and shops. The Hanna-Medicine Hat Branch is under operation from Hanna to the Red Deer River and grading is completed from this point to Redcliff.

## **THE MANUFACTURING CENTRE**

The following list of industries now in operation and the facts concerning each will demonstrate how attractive the Gas City is to the manufacture.

Table Showing amount of Capital actually Invested in Medicine Hat Industries, Monthly Payroll and Number of Employes at normal period of operation.

## **PUBLIC SCHOOL SYSTEM**

The most remarkable feature of Medicine Hat's development from town to city proportions is the way in which good and sufficient organization in every department of community life has kept pace with the rapid growth.

A well chosen staff of teachers meets the educational requirements of a progressive management. Those in charge of the more important departments of school work, as in the primary, public school leaving and high school classes are exceptionally well qualified teachers, capable of giving superior service in the class room. The administration of school affairs is thoroughly systematized, with properly proportioned responsibility resting upon the Board of Control, superintendent, principals, teachers, school officials, janitors and pupils. Efficiency has been proved in the capable manner in which a rapidly growing school population has been received, accommodation well graded and in all respects well provided for.

## **THE CHURCHES**

We are proud of the commercial and educational institutions of our city, and with these the religious needs of the community have not been neglected. All Christian denominations are well represented, to the city possesses several imposing church edifices. Among the denominations are Anglican, Presbyterian, Roman Catholic, Methodist, Christian Science, Baptist and Lutheran.

## **GENERAL HOSPITAL**

This is an institution of which many cities much larger in population might well be proud. It serves a large area of country as well as the city, and is noted for its high standard of efficiency in every department.

## **WATER SUPPLY**

Hardly less important than the churches, schools and hospital, for the welfare of the community, is a pure and adequate supply of water. This Medicine Hat can lay claim to. The water is taken from the Saskatchewan River at a point three miles above the city, and passes through an up-to-date system of purification before being used.

## **BANKING INSTITUTIONS**

Branches of the following chartered banks are located in this city: Montreal, Royal, Union, Dominion and Canadian Bank of Commerce.

The bank clearings show the substantial financial growth of the city. We give the returns showing weekly average for the past five years:

Year	Weekly Average
1918 .....	\$24,088,013.00
1919 .....	24,317,450.00
1920 .....	27,808,580.00
1921 .....	21,927,687.00
1922 .....	17,707,369.00

## **WHOLESALE CENTRE**

Situated, as Medicine Hat is, in the centre of a large farming and stock raising area, the city must of necessity become the headquarters of numerous wholesale houses, some ten being already located here.

## **STOCK RAISING**

Since the first settlement of the Great West country, stock raising has always been an important industry in Southern Alberta. The wide expanse of grassy plains, broken only by streams of pure water from the hills made it a veritable paradise for the big rancher and his fearless cowboy riders.

The last decade has seen large areas of this range land thrown open to the homesteader, and the grain grower now occupies much of the land on which roamed the big herds of horses and cattle. The grain grower is giving attention to stock raising, and it will always continue to be very important, if not the most important, industry in a country so well adapted for it.

Meteorological records show the average temperature for the growing season in this belt to be the same as it is in Southern Montana.

# System of Street Names and Numbering

---

The city has been divided into four sections, namely: North, South, West, and the district south of the river and east of Division Avenue, which has no name now. The North district is north of the river and east of Division Avenue and is that part which was formerly known as Northeast. The South district is south of the river and west of Division Avenue, formerly known as Southwest. The district now known as West is that part which lies north of the river and west of Division Avenue, and was formerly called Northwest. The fourth district is that which was formerly known as Southeast, and comprises that part situated south of the river and east of Division Avenue. This district now has no name.

The number of the street will indicate the distance from the divisional street or avenue. The abbreviations N., etc., will be used in each case. The river is the dividing line for the streets and consequently Esplanade will be First Street or First Street West according to whether east or west of the West Road Allowance.

The avenues are numbered from the West Road Allowance which will be known as Division Avenue. On the north side of the river the other avenues will be First, Second, etc., North and West, while on the south side of the river the avenues will have no district name or will be South according to whether it be east or west of Division Avenue, and will be numbered in the same way from Division Avenue.

South Railway Street and North Railway Street will retain their names. The streets on the hill and south of the C. P. R. tracks, formerly known as 5th A, B, C and D, are now changed to Aberdeen, Belfast, Cambridge and Dundee. On the north side of the C. P. R.

tracks, the streets formerly known as 5th A, B, C, D, E, F and G, are now changed to Braemar, Balmoral, Ross, Yvill, Dominion, Queen and Elm. The portion of Sixth Street which lies north of the C. P. R. tracks is now known as Bridge Street.

In numbering the streets it was found best to begin not with 100 as was first planned, but with one. Thus in the first block from the dividing avenue or the river the numbers begin with 1. In the second block they begin with 101 and in this way the number of the block is always one more than the first figure or figures of the street number. Thus number 532 would be in the sixth block.

In determining location with the new names and numbers it will be necessary to remember several things.

First—All avenues run north and south.

Second—All streets run east and west.

Third—There are four divisions of the city and the streets and avenues are named after their respective divisions, with the exception of the Southeast district which now has no name.

Fourth—The number of the block is one more than the first figure of the street number.

NOTE—The arrangement in the following Street and Avenue Directory is in numerical order, with Avenues preceding Streets. Streets and Avenues not numerically named appear last in alphabetical order.

Where the odd and even numbers on an Avenue or Street are separated, the south side (odd numbers) on Avenues will appear first and the west side (odd numbers) will appear first on Streets.

# Redcliff

In what must eventually become the manufacturing belt of Western Canada, Redcliff occupies a most prominent position through its immeasurable advantages over other places.

## Location

Redcliff is situated on the north bank of the South Saskatchewan River, and on the main Line of the Canadian Pacific Railway, about mid-way between Winnipeg and Vancouver.

## NATURAL RESOURCES

### Rich Coal Deposits

Redcliff has one of the largest working coal mines in Western Canada, with a shipping capacity of one thousand tons per day. This high-grade coal is in great and constantly increasing demand.

### Natural Gas

Redcliff has an unlimited supply of Natural Gas, containing 1,100 B. T. H. units per cubic foot. This is supplied to manufacturers at five cents per thousand feet (equivalent to coal at a cost of one dollar per ton); and to domestic consumers at a correspondingly low rate.

### Clay Deposits

Redcliff has already attained distinction in the production of bricks that are hard, durable and capable of heavy weight and severe resistance. Dry-pressed, re-pressed, wire cut, fire-proofing, hollow, and all kinds of fancy building brick are manufactured. Three large plants are operating throughout the entire year. Redcliff has all the raw materials for high-grade pottery, Portland cement and other allied lines of manufacture.

### Silica Sand

Silica sand, in abundance, from which a superior quality of glass is made, is another resource of no small proportion. The Dominion Glass Company, Ltd. (Hollow Glassware and Bottles), are in full operation. This is one of the finest plants in the Dominion—the “last word” in construction and equipment.

### Cheap Power

Nature has given Redcliff a strong advantage in its possession of cheap power (\$2.40 per horse power, per annum, per ten hour day), Cost of production is reduced to a very low point. In the grind of competition, Redcliff's manufacturer has a safe margin of profit on

this basis alone. Redcliff's inexhaustible supply of pure water is one of the crowning features of that combination of resources which makes well-balanced development not only possible, but inevitable. Water from the Saskatchewan is passed through a natural system of filtration. A reservoir capacity of 300,000 gallons and efficient distribution to all parts of the city is already accomplished.

### **Unique Industrial Opportunity**

Redcliff's level, accessible area makes possible the grouping together of allied industries, with all the advantages of easy shipping and distribution, for a fraction of the cost involved in other places. "Overhead" charges growing out of the cost of construction at points where territory is uneven, and where other natural disadvantages have to be overcome, are eliminated at Redcliff.

### **Big Industries in Operation**

- 1—Canadian Western Steel Co., Ltd.
- 2—Dominion Glass Co., Ltd.
- 3—Redcliff Brick & Coal Co., Ltd.
- 4—Redcliff Pressed Brick Co., Ltd.
- 5—Redcliff Premier Brick Co., Ltd.

### **Distributing Area**

Within a radius of from a hundred to two hundred and seventy-five miles of Redcliff are Calgary, Edmonton, Regina, Saskatoon, Moose Jaw, Swift Current, Weyburn, Battleford, North Battleford, Athabasca and Lethbridge. And between all these, hundreds of smaller towns and villages are clamoring for the products Redcliff's factories will distribute.

### **Schools and Churches**

Redcliff has a large, modern school, well equipped and affording all the advantages to be found in a city many times its size. Church services are conducted under the direction of the various denominations. Commodious church buildings will be undertaken during the year, completing the setting which goes to make a happy, enthusiastic and progressive community.

## The Objects of the Association

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory Business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

---

**\$100.00 REWARD** will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing collecting or canvassing for any fraudulent or "fake" Directory.
